
Thrill ride

Imagine you're hired to design an amusement park ride. Explain what it does, what it looks like, and whether or not it has a theme. How old do kids have to be to go on your ride?

Keep in mind: You can incorporate magical or impossible elements into your ride if you want. Time travel? Space travel? Light speed? Becoming microscopic and traveling through the human body? Anything goes.

Bonus: Draw your ride or create it in a graphic design program or in Minecraft. (Use the back of this page to draw.)
